Summer is here and Tandem Technologies wants to wish each of you a safe and relaxing summer!

Don't forget that all emailed newsletters, webinar invites and announcements are coming from Linda Kiernan - linda@tandemtechnologiesllc.com. Please make sure to add Linda's email address to your safe senders list so you don't miss out on any important information!

Follow us on Twitter: @SageAlereUSA and we'll follow you back

We hope you'll take advantage of our July e-Session on Sage Business Intelligence. Our last e-session on this topic was highly attended and we want to ensure that all of our clients get the opportunity to learn more about Sage Business Intelligence, the time it will save you, and most important, what it will do for your bottom line. Announcements and invitations to register will be going out soon - watch your email! You can register by going to our website at www.tandemtechnologiesllc.com and click on Events.

It's Not Too Late To Register For Sage Summit 2015

July 27-30, 2015 – Ernest N. Morial Convention Center, New Orleans, LA

Want to learn more about Sage Summit? Go to <http://www.sagesummit.com> and check out the list of speakers including: Tony Hawk, Chad Hurley, Jane Seymour and more.

Whether your business has been around 20 days or 20 years, whether your goal is simplifying processes or managing meteoric growth, Sage Summit is the place to be.

The Summit brings forth hundreds of Sage product experts who are eager to share their insight and tips. Join customers and consultants to hear and discuss new ideas to propel your business, build your network, get hands on training and discover innovations from more than 150 sponsors.

Tandem Technologies consultants will be attending the event and each of us look forward to meeting with customers.

** Special rates may apply - call us at 866-392-6132 for more details

Mark Your Calendars! - Tandem Technologies Monthly e-Sessions

If you missed our May and June e-sessions on Sage HRMS and the Affordable Care Act, please go to our website (www.tandemtechnologiesllc.com) where you will find the recordings of these two highly attended webinars. Both webinars were presented by the Sage HRMS team and provided great information about the solution and the new reporting requirements for the Affordable Care Act.

July e-Sessions:

➤ **Sage Business Intelligence - “What You Are Missing”**

Date: Thursday, July 23, 2015

Time: 1:15 PM to 2:30 PM CDT

Join Bob Zuckerman to see an in-depth overview of what Sage Business Intelligence is and what it is capable of doing when it comes to analyzing data. See it in action and how it can give you accurate reporting and analysis of your company's data.

➤ **ALERE -- Purchases Capabilities - multiple ways to order, receive and pay for goods**

Date: Thursday, July 23, 2015

Time: 1:15 PM to 2:30 PM EDT

Join Dennis McVeigh as he shows the multiple ways that the ALERE purchases function can work the way your business works.

August e-Sessions:

➤ **Sage 300 ERP - “Using the P/O Create Purchase Order Features of Sage 300”**

Date: Thursday, August 27, 2015

Time: 1:15 PM to 2:30 PM CDT

Join Karen Smart to learn how to create Purchase Order from Requisitions, Inventory Control min/max quantities and Sales Orders.

➤ **ALERE -- Sales Capabilities & Improved Features in ALERE Accounting 7.3**

Date: Thursday, August 27, 2015

Time: 1:15 PM to 2:30 PM EDT

Join Dennis McVeigh as he shows how in sales the general ledger custom codes provide a simple, but flexible, way to provide unique ways for your company to categorize sales based on customers, items and locations. If released, Dennis will be showing the new consignment features of ALERE Accounting 7.3.

Enroll now at <http://tiny.cc/e-session>

News on Sage 300 ERP 2016

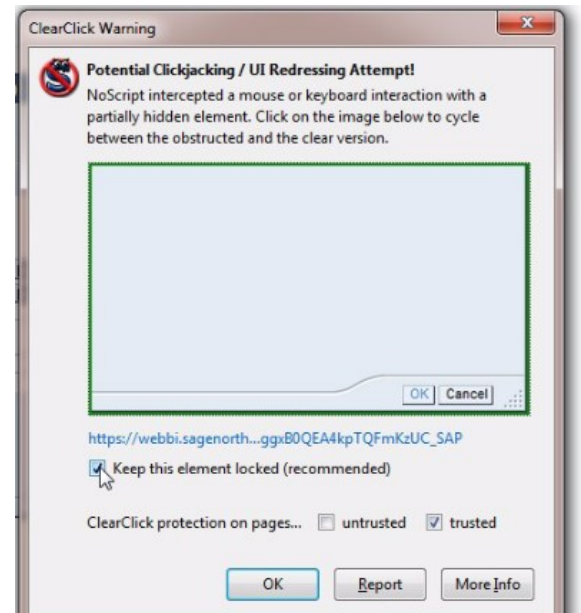

Tandem Technologies has information that Sage 300 ERP 2016 will be released in the fall of 2015. We look forward to being able to present a webinar on what's new and scheduling your upgrade. Unfortunately, at this time, we do not have information on what new features and functionality will be included. We anticipate the announcement at Sage Summit in New Orleans.

Have You Ever Heard of Clickjacking?

Basically Clickjacking is an attack revolving around the ability to control the links the user visits when on a web page. An attacker is able to construct a malicious web page and mislead the victim into clicking on certain (visible) links or buttons, whereas in reality, they are actually clicking on other links or buttons (not necessarily visible to them). So the user clicks on something they can see, but the page is constructed such that another link or button is “hidden” (or partially obscured) beneath the mouse, and this hijacks the click.

There are several ways in which content can be loaded and positioned within a web page (CSS overlay techniques for example, which are common). Attackers can exploit these techniques to construct a page where what the user sees and clicks on, does not reflect what action their click actually “performs”.

In today’s web-based, fast-paced world, what you see in your browser may not be precisely what you get. In terms of what you can do to protect yourself, options are limited without severely hampering your browsing experience. Some things you can do for additional security includes, turning on as much of your browser’s real-time protection (pop-up blockers and protected mode) as you can tolerate in order to reduce the risk of unwanted browser windows, use a web filtering product on your computer or as part of your network gateway in order to block access to suspicious URLs and files, and ensure that your on-access (real-time) virus scanner is turned on in order to stop dangerous downloads from launching, even if they are successfully downloaded.

ALERE Tips & Tricks Corner

How to Create Payable for an Invoice

1. In the **Purchases Module**, select **Payables**
2. Click the **Add** button on the **Accounts Payable** header tab
3. Select **Invoice** on the **New Order** pop-up screen
4. Enter Remit to, Invoice Number and Invoice Amount information (double click in the Remit to field to get list)
5. Click the **Accept** button
6. Review or make appropriate GL entries on **GL Journal Entry** pop-up screen
7. Click the **Post** button

IT Services For Your Hardware

Whether you utilize an outside IT firm or have an IT contract with Tandem Technologies, please contact us to schedule a date and time to install or download software to new servers and/or workstations.

With proper planning, an easy planned workstation replacement or upgrade does *not* have to become an emergency case of, “I have a new workstation and now my business accounting software does not work!”

We’re here to help you and your business succeed. Contact your Tandem Technologies consultant when you’re ready to make changes to your business.

Sage Billing and Payment

For a mere \$29.95 per month, and a one-time \$99 activation fee, you can cut the time it takes for your customers to pay you in half. Sage Billing and Payment will save paper, postage, and processing paper checks. Your customers will be able to pay you faster by closing the gap on issuing invoices and receiving payment. Customers will receive invoices electronically, reducing the number of lost invoices and customer inquiries.

This cloud based service is linked directly to your Sage 300 AP module, eliminating manual data import/export. The click to pay feature accepts credit cards, ACH, as well as partial and multiple payments per invoice. The online dashboard displays invoice status such as: sent, opened, paid, and bounced. With the customizable template you can add banners, coupons or other graphics to your invoices.

Contact your Sage 300 ERP reseller to schedule a demonstration of this service.

ALERE Accounting 7.3 Coming Soon

Our ALERE consultants attended the RoundTable session and we can’t wait until you see all the great things coming in ALERE Accounting v7.3.

Staff at TIW are currently in the Beta test phase and it won’t be long before it’s released. You will see new features such as: sales and purchase order approval process, consignment orders, pricing contract orders, expanded InTouch capabilities, and additions to native functionality. TIW staff have noted and included customer and reseller requests for feature changes and options and many of these will be included in the ALERE Accounting v7.3 release.

In order to get the latest ALERE Accounting v7.3 clients will need to be current on their software and maintenance agreement.

Contact your ALERE reseller to schedule an upgrade, a webinar to see features and functionality or renew your software maintenance agreement.
